I would also like to submit my objections to this application.

The parade already suffers badly from constant items being dumped along this stretch, everything from rubbish bags to mattresses, so having fresh fruit and veg in close proximity to this and then selling it to members of the public would raise serious health issues in my opinion.

Secondly, these footpaths are narrow and are used by a number of pedestrians on both mobility scooters and mothers with pushchairs, there would therefore be accessibility issues to consider.

Thirdly, how will this affect current deliveries being made to the shop, will there be more loading and unloading in the service road during the day to make the additional deliveries?

Finally, i note that the license will be as late as 2300hrs, assuming the fruit and vegetables will be on stands and other bulky outdoor furniture, what disruption will this cause to people living above the shops when they are dismantling outdoor furniture late at night close to midnight?

Kind regards,

Stephanie,

Both Cllr Alan Chapman and I are against this application as this parade of shops with flats above has always been a problem area for rubbish and litter.

To reduce the clear passage on the pavement for pedestrians is not acceptable.

As a Ward the three councillors are totally against this application for the following reasons.

This parade of shops and flats is a major concern to the council, other residents and general public. There is always household rubbish, and every other kind e.g. bedding, clothes, suitcases, toys, soft furnishing and furniture left out every day of the week through out the year.

The most disgusting incident I witnessed was the contents of a freezer dumped outside the flat door which was defrosting and rotting. This was on a hot Sunday afternoon.

The pavement may be wide enough to accommodate this but with the long hours and waste element involved in the street trading (vegetables etc) the area will become even worse and more unsightly and set a precedent for other shops to follow suit.

I will send a recent photo to you by separate email.

We are trying our best to get this parade of shops looking better and by granting a street trading licence is not the answer.

Regards, Pat Jackson
