Date:	24th November 2016	Time: 7:00pm
Place:	Committee Room 5, Civic Centre, Uxbridge	

ADDENDUM SHEET

Item: 6 Page: 9	Location: Land at 17 Peachey Lane
Amendments/Additional Information:	Officer Comments:
Remove reference to sink food waste grinders from condition 3 on page 10.	Not a policy requirement.
Replace condition 8 on page 11 with a SUDS condition:	A review of the conditions highlighted that there was no SUDs provisions to be implemented under condition 8 as originally printed.
Prior to commencement, a scheme for the provision of sustainable water management	
shall be submitted to, and approved in writing by the Local Planning Authority.	
The scheme shall clearly demonstrate how it, Manages Water and demonstrate ways of	
controlling the surface water on site by providing information on:	
a) Suds features:	
i. incorporating sustainable urban drainage	
(SuDs) in accordance with the hierarchy set	
out in Policy 5.15 of the London Plan. Where	
the proposal does not utilise the most	
sustainable solution, justification must be provided,	
ii. calculations showing storm period and	
intensity and volume of storage required to	
control surface water and size of features to	
control that volume to Greenfield run off rates	
at a variety of return periods including 1 in 1	
year, 1in 30, 1 in 100, and 1 in 100 plus Climate change,	
iii. where it is intended to have above ground	
storage, overland flooding should be mapped,	
both designed and exceedance routes above	
the 100, plus climate change, including flow	
paths depths and velocities identified as well	

as any hazards, (safe access and egress must be demonstrated).

b) Capacity of Receptors

- i. Capacity demonstrated for Thames Water foul and surface water network, and provide confirmation of any upgrade work required having been implemented and receiving watercourse as appropriate.
- ii. Where infiltration techniques (soakaway) or a basement are proposed a site investigation must be provided to establish the level of groundwater on the site, and to demonstrate the suitability of infiltration techniques proposed on the site. (This should be undertaken at the appropriate time of year as groundwater levels fluctuate).
- iii. Where groundwater is found within the site and a basement is proposed suitable mitigation methods must be provided to ensure the risk to others is not increased. iv. identify vulnerable receptors, ie WFD status and prevent pollution of the receiving groundwater and/or surface waters through appropriate methods;

c) Long Term Management and Maintenance of the drainage system.

- i. Provide a management and maintenance plan
- ii Include details of Inspection regimes, performance specification, (remediation and timescales for the resolving of issues where a PMC).
- lii Where overland flooding is proposed, the plan should include the appropriate actions to define those areas and actions required to ensure the safety of the users of the site should that be required.
- iii. Clear plans showing all of the drainage network above and below ground. The responsibility of different parties such as the landowner, PMC, sewers offered for adoption and that to be adopted by the Council Highways services.

Thereafter the development shall be implemented and retained/maintained in accordance with these details for as long as the development remains in existence.

REASON

To ensure that surface water run off is controlled to ensure the development does not increase the risk of flooding contrary to Policy EM6 of Hillingdon's Local Plan: Part 1-Strategic Policies (Nov 2012), Policy 5.12 and 5.13 of the London Plan (March 2016) and the National Planning Policy Framework (March 2012).

Add the following landscape condition:

Within three months of the date of this decision, a landscape scheme shall be submitted to and be approved in writing by the Local Planning Authority. The scheme shall include:

- 1. Details of Soft Landscaping
- 1.a Planting plans (at not less than a scale of 1:100).
- 1.b Written specification of planting and cultivation works to be undertaken,
- 1.c Schedule of plants giving species, plant sizes, and proposed numbers/densities where appropriate
- 2. Details of Hard Landscaping
- 2.a Means of enclosure/boundary treatments
- 2.b Hard Surfacing Materials
- 2.c Pedestrian link to the relocated ATM
- 2.d External Lighting
- 3. Details of Landscape Maintenance 3.a Landscape Maintenance Schedule for a minimum period of 5 years.
- 3.b Proposals for the replacement of any tree, shrub, or area of surfing/seeding within the landscaping scheme which dies or in the opinion of the Local Planning Authority becomes seriously damaged or diseased.
- 4. Schedule for Implementation

Thereafter the development shall be carried out and maintained in full accordance with the approved details.

REASON

To ensure that the proposed development will preserve and enhance the visual amenities of the locality and provide adequate facilities in compliance with policies BE13 and BE38 Hillingdon Local Plan: Part Two Saved UDP Policies (November 2012).

A review of the application highlighted the need for a more detailed landscaping that will also secure its retention.

Replace first part of informative 2 with:

The decision to GRANT planning permission has been taken having regard to the policies and proposals in the Hillingdon Unitary Development Plan Saved Policies (September 2007) as incorporated into the Hillingdon Local Plan (2012) set out below, including Supplementary Planning Guidance, and to all relevant material considerations, including the London Plan (2015) and national guidance.

Updated to reflect current policies.

Replace section 7.20 of the report with:

The Council adopted its own Community Infrastructure Levy (CIL) on August 1st 2014 and the Hillingdon CIL charge for residential developments is £95 per square metre of additional floorspace. This is in addition to the Mayoral CIL charge of £35 per sq metre.

The development would be CIL liable.

Correction.

Change Recommendation on page 75 to:

That delegated powers be given to the Head of Planning and Enforcement to grant planning permission following the expiry of a period of reconsulation on an amended site location plan, subject to no new matters arising that have not already been addressed in this report and subject to the agreement of the Chair of the Planning Committee and the Labour Party lead.

The submitted site location plan show a redline only around the perimeter of the proposed extension. The rest of the site is outlined in blue denoting the extent of the applicants interest in the land. This approach would be acceptable except that the proposed development includes land falling outside the redline. Therefore a revised site location plan is required on which officers will have to reconsult.
