

**Extract from DfE Guidance - “Making Changes to a Mainstream School (Other than Expansion, Foundation, Discontinuance & Establishment Proposals)**

**Statutory Guidance – Factors to be Considered by Decision Makers (Paragraphs 4.15-4.16)**

4.15 Regulation 8 of The Regulations provides that both the LA and schools adjudicator **must** have regard to guidance issued by the Secretary of State when they take a decision on proposals. Paragraphs 4.16 to 4.60 below contain the statutory guidance.

4.16 The following factors **should not** be taken to be exhaustive. Their importance will vary, depending on the type and circumstances of the proposals. All proposals **should** be considered on their individual merits.

**EFFECT ON STANDARDS AND SCHOOL IMPROVEMENT**

**A System Shaped by Parents (Paragraphs 4.17-4.18)**

4.17 The Government's aim, as set out in the Five Year Strategy for Education and Learners and the Schools White Paper Higher Standards, Better Schools For All, is to create a schools system shaped by parents which delivers excellence and equity. In particular, the Government wishes to see a dynamic system in which:

- weak schools that need to be closed are closed quickly and replaced by new ones where necessary; and
- the best schools are able to expand and spread their ethos and success.

4.18 The EIA 2006 amends the Education Act 1996 to place duties on LAs to secure diversity in the provision of schools and to increase opportunities for parental choice when planning the provision of schools in their areas. In addition, LAs are under a specific duty to respond to representations from parents about the provision of schools, including requests to establish new schools or make changes to existing schools. The Government's aim is to secure a more diverse and dynamic schools system which is shaped by parents. The Decision Maker **should** take into account the extent to which the proposals are consistent with the new duties on LAs.

**Standards (Paragraphs 4.19-4.20)**

4.19 The Government wishes to encourage changes to local school provision which will boost standards and opportunities for young people, whilst matching school place supply as closely as possible to pupils' and parents' needs and wishes.

4.20 Decision Makers **should** be satisfied that proposals for prescribed alterations will contribute to raising local standards of provision, and will lead

to improved attainment for children and young people. They **should** pay particular attention to the effects on groups that tend to under-perform including children from certain ethnic groups, children from deprived backgrounds and children in care, with the aim of narrowing attainment gaps.

#### **Diversity (Paragraphs 4.21-4.23)**

4.21 Decision Makers **should** be satisfied that when proposals lead to children (who attend provision recognised by the LA as being reserved for pupils with special educational needs) being displaced, any alternative provision will meet the statutory SEN improvement test (see paragraphs 4.55 - 4.59).

4.22 The Government's aim is to transform our school system so that every child receives an excellent education – whatever their background and wherever they live. A vital part of the Government's vision is to create a more diverse school system offering excellence and choice, where each school has a strong ethos and sense of mission and acts as a centre of excellence or specialist provision.

4.23 Decision Makers **should** consider how proposals will contribute to local diversity. They **should** consider the range of schools in the relevant area of the LA and whether the alteration to the school will meet the aspirations of parents, help raise local standards and narrow attainment gaps.

#### **Every Child Matters (Paragraph 4.24-4.25)**

4.24 The Decision Maker **should** consider how proposals will help every child and young person achieve their potential in accordance with "Every Child Matters" principles which are: to be healthy; stay safe; enjoy and achieve; make a positive contribution to the community and society; and achieve economic well-being.

4.25 This **should** include considering how the school will provide a wide range of extended services, opportunities for personal development, access to academic and applied learning training, measures to address barriers to participation and support for children and young people with particular needs, e.g. looked after children or children with special educational needs (SEN) and disabilities.

#### **Equal Opportunity Issues (Paragraph 4.30)**

4.30 The Decision Maker **should** consider whether there are any sex, race or disability discrimination issues that arise from the changes being proposed, for example that where there is a proposed change to single sex provision in an area, there is equal access to single sex provision for the other sex to meet parental demand. Similarly there needs to be a commitment to provide access to a range of opportunities which reflect the ethnic and cultural mix of the area, while ensuring that such opportunities are open to all.

#### **NEED FOR PLACES**

### **Provision for Displaced Pupils (Paragraph 4.31)**

4.31 Where proposals will remove provision, the Decision Maker **should** be satisfied that there is sufficient capacity to accommodate displaced pupils in the area, taking into account the overall supply and likely future demand for places. The Decision Maker **should** consider the quality and popularity with parents of the schools in which spare capacity exists and evidence of parents' aspirations for those schools.

### **Travel and Accessibility for All (Paragraphs 4.35-4.36)**

4.35 In considering proposals for the reorganisation of schools, Decision Makers **should** satisfy themselves that accessibility planning has been properly taken into account. Facilities are to be accessible by those concerned, by being located close to those who will use them, and the proposed changes **should not** adversely impact on disadvantaged groups.

4.36 In deciding statutory proposals, the Decision Maker **should** bear in mind that proposals **should not** have the effect of unreasonably extending journey times or increasing transport costs, or result in too many children being prevented from travelling sustainably due to unsuitable routes e.g. for walking, cycling etc. The EIA 2006 provides extended free transport rights for low income groups – see Home to School Travel and Transport Guidance re 00373 – 2007BKT-EN at [www.education.gov.uk/publications](http://www.education.gov.uk/publications). Proposals **should** also be considered on the basis of how they will support and contribute to the LA's duty to promote the use of sustainable travel and transport to school.

## **SPECIAL EDUCATIONAL NEEDS (SEN) PROVISION**

### **Initial Considerations (Paragraphs 4.53-4.54)**

4.53 SEN provision, in the context of School Organisation legislation and this guidance, is provision recognised by the LA as specifically reserved for pupils with special educational needs. When reviewing SEN provision, planning or commissioning alternative types of SEN provision or considering proposals for change, LAs **should** aim for a flexible range of provision and support that can respond to the special educational needs of individual pupils and parental preferences, rather than necessarily establishing broad categories of provision according to special educational need or disability. There are a number of initial considerations for LAs to take account of in relation to proposals for change. They **should** ensure that local proposals:

- a. take account of parental preferences for particular styles of provision or education settings;
- b. offer a range of provision to respond to the needs of individual children and young people, taking account of collaborative arrangements (including between special and mainstream), extended school and Children's Centre provision; regional centres (of expertise ) and regional and sub-regional

provision; out of LA day and residential special provision;

- c. are consistent with the LA's Children and Young People's Plan;
- d. take full account of educational considerations, in particular the need to ensure a broad and balanced curriculum, including the National Curriculum, within a learning environment in which children can be healthy and stay safe;
- e. support the LA's strategy for making schools and settings more accessible to disabled children and young people and their scheme for promoting equality of opportunity for disabled people;
- f. provide access to appropriately trained staff and access to specialist support and advice, so that individual pupils can have the fullest possible opportunities to make progress in their learning and participate in their school and community;
- g. ensure appropriate provision for 14-19 year-olds, taking account of the role of local LSC funded institutions and their admissions policies; and
- h. ensure that appropriate full-time education will be available to all displaced pupils. Their statements of special educational needs will require amendment and all parental rights **must** be ensured. Other interested partners, such as the Health Authority **should** be involved.

4.54 Taking account of the considerations, as set out above, will provide assurance to local communities, children and parents that any reorganisation of SEN provision in their area is designed to improve on existing arrangements and enable all children to achieve the five Every Child Matters outcomes.

#### **The Special Educational Needs Improvement Test (Paragraph 4.55)**

4.55 When considering any reorganisation of provision that would be recognised by the LA as reserved for pupils with special educational needs, including that which might lead to some children being displaced through closures or alterations, LAs, and all other proposers for new schools or new provision, will need to demonstrate to parents, the local community and Decision Makers how the proposed alternative arrangements are likely to lead to improvements in the standard, quality and/or range of educational provision for children with special educational needs. All consultation documents and reorganisation plans that LAs publish and all relevant documentation LAs and other proposers submit to Decision Makers **should** show how the key factors set out in paragraphs 4.59 to 4.62 below have been taken into account by applying the SEN improvement test. Proposals which do not credibly meet these requirements **should not** be approved and Decision Makers **should** take proper account of parental or independent representations which question the LA's own assessment in this regard.

**Key Factors (Paragraphs 4.56-4.59)**

4.56 When LAs are planning changes to their existing SEN provision, and in order to meet the requirement to demonstrate likely improvements in provision, they **should**:

a. identify the details of the specific educational benefits that will flow from the proposals in terms of:

- i. improved access to education and associated services including the curriculum, wider school activities, facilities and equipment, with reference to the LA's Accessibility Strategy;
- ii. improved access to specialist staff, both education and other professionals, including any external support and/or outreach services;
- iii. improved access to suitable accommodation; and
- iv. improved supply of suitable places.

b. LAs **should** also:

- i. obtain a written statement that offers the opportunity for all providers of existing and proposed provision to set out their views on the changing pattern of provision seeking agreement where possible;
- ii. clearly state arrangements for alternative provision. A 'hope' or 'intention' to find places elsewhere is not acceptable. Wherever possible, the host or alternative schools **should** confirm in writing that they are willing to receive pupils, and have or will have all the facilities necessary to provide an appropriate curriculum;
- iii. specify the transport arrangements that will support appropriate access to the premises by reference to the LA's transport policy for SEN and disabled children; and
- iv. specify how the proposals will be funded and the planned staffing arrangements that will be put in place.

4.57 It is to be noted that any pupils displaced as a result of the closure of a BESD school (difficulties with behavioural, emotional and social development) **should not** be placed long-term or permanently in a Pupil Referral Unit (PRU) if a special school place is what they need. PRUs are intended primarily for pupils who have been excluded, although LAs can and do use PRU provision for pupils out of school for other reasons such as illness and teenage pregnancies. There may of course be pupils who have statements identifying that they have BESD who have been placed appropriately in a PRU because they have been excluded; in such cases the statement **must** be amended to name the PRU, but PRUs **should not** be seen as an alternative long-term provision to special

schools.

4.58 The requirement to demonstrate improvements and identify the specific educational benefits that flow from proposals for new or altered provision as set out in the key factors are for all those who bring forward proposals for new special schools or for special provision in mainstream schools including governors of foundation schools and foundation special schools. The proposer needs to consider all the factors listed above.

4.59 Decision Makers will need to be satisfied that the evidence with which they are provided shows that LAs and/or other proposers have taken account of the initial considerations and all the key factors in their planning and commissioning in order to meet the requirement to demonstrate that the reorganisation or new provision is likely to result in improvements to SEN provision.

## **OTHER ISSUES**

### **Views of Interested Parties (Paragraph 4.60)**

4.60 The Decision Maker **should** consider the views of all those affected by the proposals or who have an interest in them including: pupils; families of pupils; staff; other schools and colleges; local residents; diocesan bodies and other providers; LAs; the LSC (where proposals affect 14-19 provision) and the Early Years Development and Childcare Partnership if one exists, or any local partnership or group that exists in place of an EYDCP (where proposals affect early years and/or childcare provision). This includes statutory objections and comments submitted during the representation period. The Decision Maker **should not** simply take account of the numbers of people expressing a particular view when considering representations made on proposals. Instead the Decision Maker **should** give the greatest weight to representations from those stakeholders likely to be most directly affected by the proposals.
