INFORMATION

The Annual Report for the Pension Fund for 2012/13, which contains the Pension Fund accounts, will be formally released to Deloitte, the Council's external auditors, for audit at the end of June. The report is then brought to Committee along with the audit report in September for signing. A draft copy is, therefore, being brought to Committee in June for comment and review prior to being released to Deloitte. The accounts have yet to be finally reviewed and so are presented to Committee in draft form at this stage. However, they will be fully reviewed prior to the end of June.
