Cabinet - 20 March 2014

982	Civic Centre Air Handling Units Replacement	The office accommodation of the Civic Centre is currently air-conditioned by four air handling units (AHUs). The existing original units are now in a poor condition, suffering high levels of corrosion, seized valves and controls having to be regularly overridden. These units are also outmoded and un-economical in operation and therefore a comprehensive replacement and overhaul is required to provide the Civic Centre a modern, effective and efficient air conditioning system.
