

MOTIONS

7.1 MOTION FROM COUNCILLOR CURLING

That this Council recognises that the changes made at the Council meeting on 15 January 2015 to the number and location of polling stations in the Borough, made it difficult and confusing for some residents to visit a conveniently located and easily accessible polling station in order to cast their vote at the last General Election.

Council therefore instructs officers to revisit the recent review of polling stations with the aim of putting residents first and making sure it is as convenient as possible, with ease of access, for them to cast their votes, rather than try to restrict every ward to an arbitrary maximum of three polling stations per ward.
