An additional point of rejection should be that no test for alternative sites was carried out. <p>In their discussions, councillors raised the following points:</p> <ul style="list-style-type: none"> • Members enquired whether alternative siting could be encouraged, to which officers drew attention to informative BE37 in relation to the location of the application. • Members enquired as to whether the objection regarding height of the mast would be robust enough if taken to appeal. In response, officers clarified that the previous permission for the mast had established this as an acceptable location, but the additional height would take the mast above the tree line. The grounds for refusal were considered sufficiently robust should there be an appeal. • Members agreed that the present grounds for refusal were strong and did not require additions. <p>The motion for refusal was moved, seconded and upon being put to a vote was unanimously agreed.</p> <p>RESOLVED:</p> <p style="padding-left: 40px;">- That the application be refused.</p>
