Example of community led improvements to parks and playgrounds.

Long Drive playground improvements

Long Drive playground was renovated at the request of a local mum and regular visitor to the playground who noticed that the existing play equipment was looking tired and worn. Feedback on the final design was gathered from pupils and parents of nearby Deanesfield School and included a zip wire which is very popular.

The new playground was formally opened by the Mayor of Hillingdon on 27 May 2015, following £80,000 investment from the council's Chrysalis Programme.
