DRAFT Version 0.11

Hillingdon Executive Summary

Our five year plan for people in Hillingdon to be well and live well

This is a working document and content is not final

The Local Picture in Hillingdon

- 309,300 People (16/17 Estimate) increasing to approximately 321,000 in 2020/21
- **£347.8m** (16/17 CCG Allocation)
- 46 GP Practices and 4 GP Networks
- **302,198** registered Hillingdon CCG patients (01.07.2015)

The majority of hospital based care occurs at The Hillingdon Hospital with smaller amounts of work done at Imperial and Northwick Park Hospitals.

Our local Community & Mental Health Services are delivered by Central & North West London NHS Foundation Trust.

We work across health and local authority services to deal with our shared responsibilities including commissioning The Sustainability and Transformation Plan (STP) sets out our shared plans for the next five years to 2020/21. The STP brings together providers and commissioners of care (both local government and NHS) to deliver a genuine place based plan for the borough. The STP will act as a platform for development of new and innovative way of funding Health and Social Care in Hillingdon. services for people with Mental Health

issues and Learning Disabilities as well as services for Children.

We are also working to establish an Accountable Care Partnership (ACP) that will see even closer integration between health providers as well as the Third and Voluntary Sectors.

Hillingdon is faced with potentially significant additional environmental and health burdens through the prospect of a third runway at Heathrow as well as opportunities through new developments such as Crossrail. Our STP is built on current local plans within Hillingdon and across NW London including (but are not limited to):

- Joint Strategic Needs Assessment
- Health and Wellbeing Strategy
- Better Care Fund Plan
- Our Digital Strategy
- Strategic Estates Plans
- Local Services Strategy
- Long Term Conditions Strategy
- End of Life Strategy
- Prevention Strategy
- Quality, Improvement, Productivity and Prevention (QIPP) Plans
- The Shaping a Healthier

- Future Programme
- NWL Local Services Programme
- NWL Whole Systems
 Integrated Care
- 2016/17 Operational Plan
- The Londonwide Strategic Commissioning Framework for Primary Care
- The NWL Primary Care Transformation Programme
- NHS Five Year Forward View
- GP Forward View

Our local STP builds on our approach of continuous dialogue with the public and partner engagement as a platform for the development of the above plans and strategies. We are currently undertaking an extended period of engagement on the local Hillingdon STP and current content and thinking is subject to further reiterations and refinement.

This executive summary is designed to feed in to the wider North West London plan and to provide an abbreviated account of the wider work underway and planned in Hillingdon and should be read with this context in mind.

The Financial Situation – Hillingdon Whole System

The most likely growth assumptions over the next five years will see approx. 21% more activity being needed to be funded and to respond to this growth.

* Figure not inclusive of children element

2020/21 estimates	Hillingdon £m	NWL £m

Total DO Nothing	(104)	(1,219)

Understanding Our Population: The Health & Wellbeing of Hillingdon

In Hillingdon our Health and Wellbeing Strategy and our Joint Strategic Needs Assessment, developed locally between the Local Authority and the CCG are the basis for our understanding of the changing needs and issues facing our population which include those shown below.

Health in summary

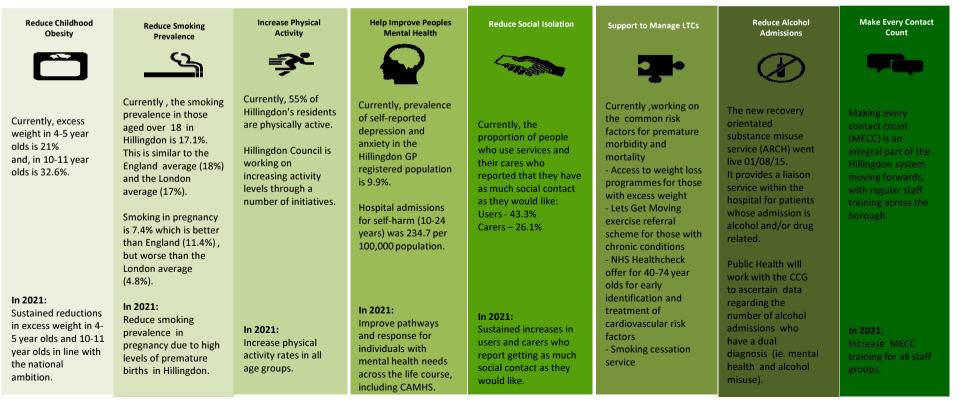

The health of people in Hillingdon is varied compared with the England average. The projected 2020/21 resident population is 321,000. Deprivation is lower than average, however about 20.1% (11,800) children live in poverty. Healthy life expectancy at birth for both men (65.5) and women (63.2) is similar to the England average.

Child health

At 3%, Hillingdon's low birth weight is similar to London average (3.2%) and England average (2.9%). Levels of excess weight and obesity are a growing threat to population health.

Adult health

The excess weight prevalence in adults (63.4%) is similar to the national average (64.6%). Hillingdon's utilisation of outdoor space (14.7%) is similar to the national average (17.9%). The incidence of TB in Hillingdon is (41.9 per 100,000) higher than for both London average (35.4 per 100,000) and national average (13.5 per 100,000). Cancer screening rates for breast (70.9%), cervical (66.9%) and bowel (52.1%) in Hillingdon are lower than national averages.

The 2021 Vision for Care & Support in Hillingdon

Below we have outlined the Hillingdon vision for how we will close the three gaps outlined within the Five Year Forward view and the STP guidance:

Health & Wellbeing Working collaboratively across health, social care and public health we will improve outcomes and reduce inequalities for our population with a focus on those with both traditional Long Term Conditions (including both physical and mental health LTCs) and emergent categories of LTCs such as pain, frailty and social isolation.

Our coordinated programme of work will bring together our existing plans for the BCF and our Health & Wellbeing Strategy (HWBB) and engage our whole community to create a resilient population and assist people to remain independent with better quality of life for longer.

Care & Quality We will provide care that is safe, effective and delivered by experienced practitioners through collaborative working across health and social care services.

We will be able to share information that improves the quality of health and social care services and that enables our population to make informed choices.

We will deliver the best and highest quality care possible within the constraints of our local economy and the growth in demand that we are predicting.

Finance & Efficiency

It is simply not viable to continue trying to respond to increasing demand for services, particularly at the expense of preventative action. We are committed to finding financial savings and ways to achieve better outcomes for individuals and their families through the better integration of services and by reducing demand through an increased focus on prevention and patient activation.

Our Local Plans for Implementation Through the 5 Delivery Areas

How are we going to achieve our priorities through the 5 key delivery areas?

The NHS and local authorities across NW London have agreed to work together to deliver a better health and care system. The STP describes our shared ambition across health and local government to create an integrated health and care system that enables people to live well and be well. A draft plan of NW London's vision for improving the health and care system has been developed and was submitted to NHS England at the end of June and include 9 Priorities grouped in 5 Delivery Areas:

Triple Aim		Our priorities	Primary Alignment*	Delivery areas (DA)
	1	Support people who are mainly healthy to stay mentally and physically well, enabling and empowering them to make healthy choices and look after themselves		DA 1 Radically upgrading
Improving health &	2	Improve children's mental and physical health and well-being	-//	prevention and wellbeing
wellbeing	3	Reduce health inequalities and disparity in outcomes for the top 3 killers: cancer, heart diseases and respiratory illness		DA 2 Eliminating unwarranted variation and
Improving	4	Reduce social isolation	//	improving LTC management
care & quality	5	Reducing unwarranted variation in the management of long term conditions – diabetes, cardio vascular disease and respiratory disease		DA 3 Achieving better outcomes and experiences for older
	6	Ensure people access the right care in the right place at the right time		DA 4
Improving productivity	7	Improve the overall quality of care for people in their last phase of life and enabling them to die in their place of choice		Improving outcomes for children &adults with mental health needs
& closing the financial gap	8	Reduce the gap in life expectancy between adults with serious and long term mental health needs and the rest of the population		DA 5
	9	Improve consistency in patient outcomes and experience regardless of the day of the week that services are accessed		Ensuring we have safe, high quality sustainable acute services

6

What will be different for Hillingdon residents in 2021?

WORDING UNDER REVIEW

DA 1 Radically upgrading prevention and wellbeing	Our focus will be on developing processes that place far greater emphasis on keeping people healthy and well in order to lead longer, more illness-free lives; preventing rather than treating illness. Will are developing services that will aid earlier diagnosis – such as access to online advice and expanded medication reviews; and prevention – through the provision of our patient education workshops, wellbeing and support activities in our community. Putting people in Hillingdon in charge of their own health.
DA 2 Eliminating unwarranted variation and improving LTC management	Healthcare services in Hillingdon are still not sufficiently joined up and do not deliver the best outcomes for patients. Services will work better together and variation in both quality of care and access to care will improve throughout the borough. Patients will receive care closer to home with more services; in addition to the existing dermatology and pain management moved into the community to create a system that will deliver better care for our patients - in a safe and effective way. We will focus upon finding ways of doing things differently: using technology to fundamentally improve services, providing highly responsive, effective and personalised care in or as close to people's homes as possible.
DA 3 Achieving better outcomes and experiences for older people	Our health and social care services will work better together to ensure local people receive better care – especially those with multiple long term conditions. The expansion of our community outreach programme will provide support for nurses and carers working to help their patients stay in the home for longer, rather than being taken into hospital. Mental health professionals and GPs will work better together with care home staff so they can help patients more effectively. We will have community based multi-disciplinary teams that could include practice and community nurses, social care workers, allied health professionals, community mental health workers, community midwives, GPs, and specialist consultants including geriatricians.
DA 4 Improving outcomes for children &adults with mental health needs	People in Hillingdon with mental health needs will have a single point of access and their requirements identified early to ensure prevention and improved wellbeing. Those with long term conditions will have psychological support in a community setting through local well-being and prevention services that are provided by primary, community and social care services working together in a coordinated way. Community based services will provide urgent, enhanced crisis and out of hours support giving people the care they need, in the best place and in a timely manner providing better opportunities for healthy active lives.
DA 5 Ensuring we have safe, high quality sustainable acute services	Our hospitals will operate to a very high quality without the need for extra unplanned financial support with the ability to respond more effectively to increases in demand and provide more efficient diagnosis, timely triage and consultant services and effective transfer and discharge processes. Patients will see care beyond general practice services including specialist primary care outpatient clinics, treatment diagnostics and urgent care. Services will be coordinated and people in Hillingdon will receive complete 'joined up' care.

What are we doing in 2016/17 against the 5 Delivery Areas?

Our local STP builds on a number of plans and strategies currently underway. There is therefore a great deal of work already in progress across the 5 Delivery Areas, some of which is detailed below and overleaf. Our plans for 2017/18 and 2018/19 are set out over the subsequent pages.

DA 1 Radically upgrading prevention and wellbeing	 Mental Health and Wellbeing Programme – producing a case for change including a range of support and wellbeing options focusing on the mental health of Hillingdon residents By the end of 2016/17 supporting 3500 patients to have a better understanding of their long terms conditions through the Empowered Patient Programme Developing a new service model for people at risk of falls Developing a model for strengthening medical support to care homes Currently evaluating the effectiveness of the joint Better Care Fund schemes developed by Hillingdon Local Authority and CGG Development of a three-year BCF plan joint with LBH by March 2017 Sign-off and implementation of our local Prevention Strategy. Expanding our programme of medication reviews in GP Practices to ensure effective and cost-efficient use of medicines Consult on and agree an air quality and public health action plan Ongoing implementation of the new Hillingdon Carers Strategy. Understanding the impact of social isolation on the health of the Hillingdon population, identifying tools enabling early identification in a range of primary and social care settings and developing a case for change. Implementing Patient Champions in the Urgent Care Centre Improve access to online advice
DA 2 Eliminating unwarranted variation and improving LTC management	 Delivering services for patients with LTCs (Cardiology, Respiratory and Diabetes) through community based multi disciplinary integrated teams A redesigned service for children suffering from asthma conditions Development of an accountable care partnership for the Hillingdon population Develop a programme to focus on management of long term conditions co-morbidities Enhancing the effectiveness of primary care IT systems through use of clinical decision support tools to help ensure patients access the right pathways Implementation of Hillingdon Cancer Improvement Strategy Implement National Cancer Vanguard Programme in partnership with Royal Marsden. Developing plans to create direct access cancer diagnostic capacity for Hillingdon GPs to support early diagnosis of cancer Effectiveness of Long Term Condition Strategy to be captured and measured by patient outcomes data Implement Remaining Cancer Stratified Pathways Redesigning pathways for stroke and early supported discharge in community services, in partnership with local providers

What are we doing in 2016/17 against the 5 Delivery Areas (2)?

DA 3 Achieving better outcomes and experiences for older people	 Implementing a new Older People's Integrated Care service model. Implementing Intermediate Care 'In Reach' from Community /Third Sector from October . Reviewing Homesafe Programme (Early Supported Discharge) and expanding integrated discharge planning. Developing the accountable care partnership to support integration between acute, community, primary care health and social care / other local providers initially focusing around older people Publish and begin to implement the new joint End of Life Strategy from December to improve planning of, access to and integration of end of life services, including a single point of access Early identification and support for frail patients through implementation of frailty tool linked to risk stratification and care planning. Clear methodology to collect and use patient outcomes as a service improvement mechanism. Better engagement with voluntary and community sector via HillingdonAll. Embedding health and wellbeing gateway and Patient Activation Measures (PAM) to support self-management Embedding of memory clinics and ensuring robust links to primary care. Developing an integrated health and social care service model for Hillingdon. Developing a range of focused programmes targeting the Care Homes population More patients able to access consultants in community setting including a new care of the elderly consultant post in Hillingdon A&E Integrated service model available 7 days a week Delivery of anticipatory care planning and coordinated care through deployment of Care Connection Teams across Hillingdon (following pilot)
DA 4 Improving outcomes for children &adults with mental health needs	 Developing a business case for services to support those in care homes with serious mental health needs by January 2017 Implement and deliver national and NWL strategies - Future in Mind / Like Minded from March 2017 Implementation of all age Early Intervention Services from October 2016 As a part of further development of Hillingdon Urgent Care pathways we will develop clear mechanism for the Crisis Resolution Home Treatment rapid response pathways Development of a strategy for adults and children with autism Evaluating the effectiveness of 24/7 Mental Health Single Point of Access service model Implementing new Community Learning Disabilities Service from July 2016, including ASD, ADHD packages of care to provide enhance health planning and community based services. Developing a Suicide Prevention Strategy following publication of audit in October 2016 Roll out of a service for young people with eating disorders from August 2016 and embed enhanced crisis and urgent out of hours service for CAMHS Developing CYP IAPT service in partnership with children & young people and their parents/carers Improving perinatal mental health service provision along with the development and implementation of perinatal strategy. Ensure that mental health support to people with LTCs and at End of Life is integral to the ACP programme
DA 5 Ensuring we have safe, high quality sustainable acute services	 Focus on the 4 Acute Standards and seek selective delivery of services in other settings as per the strategy. Mainstreaming of 7 day therapy in HICU (intermediate care unit) by January 2017 Develop dashboard to monitor outcomes and activity over 7 days Developmental work with Bucks New University in partnership with THH, CNWL and others to ensure development of the future workforce. CNWL leadership programme for all new Band 7 and 8a posts. Review quality of Delayed Transfers of Care monitoring data to ensure patients receive seamless services THH audit of Neo-natal births & babies screening programmes. THH working with GPs and community providers to pilot new models of acute care using a networked approach. Master-planning process for redesign of the hospital site Develop new consultant led escalation model for enhanced care linked to optimised community intermediate care services Pilot a nurse-led acute medical clinic, before offering the service 7 days per week Adopt e-prescribing at Hillingdon hospital and Mount Vernon hospital. improve access to diagnostics - to ensure cancer RTT targets continue to be met

What will we be doing in 2017/18 against the 5 Delivery Areas?

DA 1 Radically upgrading prevention and wellbeing	 By the end of 2017 we will have rolled out a Joint Physical Activity strategy with LBH BCF - evaluation of the effectiveness of interventions / schemes, and assessment of impact of benefit realisation on the NHS and LA By September 2017 we will have expanded the Empowered Patients Programme to cover a wider range of conditions From April 2017 we will begin to implement our Prevention Strategy Rollout of Proactive Case Finding in Primary Care to be ready by September 2017 We will expand Personal Health Budgets in Hillingdon, putting patients in charge of their treatment options Expand the usage of Patient Activation Measures (PAM) Expand access to and use of online information and advice Ongoing implementation of the Hillingdon Carers Strategy Delivery of wellbeing training programme for schools Implementation of the recommendations from the audit of neo-natal births & babies screening programmes
DA 2 Eliminating unwarranted variation and improving LTC management	 By June 2017 we will rollout our approach to tackling co-morbidities and complex needs Rationalisation of Primary Care Contracts and investment in enhanced, at scale primary care By June 2017 we will complete analyses to help us close the gap between those who have diagnosed and un-diagnosed LTCs Ongoing rollout of actions from our Cancer Improvement Plan By September 2017 we will have mobilised new AF and stroke pathways and services Continued delivery of National Cancer Vanguard Programme Development of psychological support for people with long-term conditions including access to Talking Therapies Enhanced progression of BHH RightCare Programme in line with strategic plans developed in October 2016 Implementation of Primary Care Model of Care
DA 3 Achieving better outcomes and experiences for older people	 By April 2017 we will have embedded Care Connection Teams across Hillingdon By June 2017 we will have rolled out the accountable care partnership model of care for older people From April 2017 we will rollout new models of care for care homes integrating Primary, Community and Secondary Care support including embedding the use of frailty tools Implementation of post discharge follow ups in the community Rollout of the EoL Strategy and new integrated service model Increase access to Coordinate My Care (CMC) By April 2017 we will achieve full integration of Co-ordinate my Care and Primary Care clinical systems
DA 4 Improving outcomes for children &adults with mental health needs	 Delivery of the Like Minded Programme Improve support for patients with MH related LTCs Implement MH support for people with a physical LTC Expand integrated care planning to include people with MH needs Rollout new model of Community MH Support Rollout SPA for CYP Implement crisis and out of hours support for CAMHS Implementation of the strategy for adults and children with autism
DA 5 Ensuring we have safe, high quality sustainable acute services	 Provide medical retina services at Mount Vernon hospital to treat macular degeneration Focus on additional 7 Day Standards Develop ambulatory acute care for frail elderly by adopting a networked approach Finalise Local Services Strategy for Hillingdon. Rollout new 111 Service and Primary Care Triage Model Improved access to consultant led paediatric services

What will we be doing in 2018/19 against the 5 Delivery Areas?

DA 1 Radically upgrading prevention and wellbeing	 By April 2018 we will complete evaluation and further development of Empowered Patient Programme Bu January 2018 the Hillingdon Prevention Strategy will be fully implemented Further implementation of Personal Health Budgets focusing on patients outside of Continuing Care Evaluation of screening outreach programmes Additional promotion of assistive technologies e.g. telecare and telehealth Opening of two extra care sheltered units for older people Expanded access to and use of online advice
DA 2 Eliminating unwarranted variation and improving LTC management	 By March 2019 we will complete a review and evaluation of our Cancer Improvement Plan We will continue delivery of the National Cancer Vanguard Programme Psychological support to people with long-term conditions will be fully embedded within Hillingdon health systems Delivery of Primary Care Model of Care
DA 3 Achieving better outcomes and experiences for older people	 Enhanced progression of BHH RightCare Programme Proactive identification and engagement at primary care level with groups at high risk of developing LTCs Further development of the ACP Model By March 2019 we will have evidence of closing the prevelance gaps between those with diagnosed and un- diagnosed LTCs Evaluation and further development of programmes focussed on the care homes population Delivery of EoL Strategy and new integrated service model Further expanded access to Coordinate My Care (CMC) for proactive care planning Delivery of a paperless system through the full integration of Co-ordinate my Care and primary care clinical systems
DA 4 Improving outcomes for children &adults with mental health needs	 Ongoing delivery of the Like Minded Programme By January 2019 full operational delivery of the strategy for adults and children with autism By March 2019 we will complete evaluation of support programmes for patients with MH related LTCs Delivery of new model of Community MH Support Delivery of Community LD Services CYP SPA – evaluation process Further delivery of wellbeing programme training programme for schools
DA 5 Ensuring we have safe, high quality sustainable acute services	Full implementation of 7 Day Standards

Main Challenges Facing Delivery

The following is a summary of the challenges to the implementation of Hillingdon's plans for the 5 Delivery Areas

Hillingdon Health & Wellbeing Gaps	 Wider population health - development of range of interventions to prevent deterioration - management of demand by preventing or delaying the onset of ill-health Resilience in primary care Development of localised programmes enabling people managing their own conditions through easily available education, tools and support enabling them to remain as healthy as possible Greater presence and capacity of voluntary sector in supporting communities with their health and wellbeing resulting in less demand for primary and acute care as a result of community interventions Management of organisational change - health system wide consideration of Social Isolation as a Long Term Condition and its impact on both the physical and mental wellbeing of local population Development of robust methodologies enabling effective access to information - Whole system understanding of services available allowing for referral to the most appropriate service regardless of commissioner Development of localised service models based on needs of local pupation at locality level - meeting the needs Individuals with mental health problems from marginalised groups including Black and Minority Ethnic (BME) communities, homeless people, older adults, those in contact with the criminal justice system and people with learning disabilities have a further elevated risk of poor health outcomes
Hillingdon Care & Quality Gaps	 Maternity services – integration of Ealing Unit Current capacity of the health system - the most likely growth assumptions over the next five years will see approx. 21% more activity Access rates to first intervention – development of new referral / care pathways National shortage of suitably qualified staff Improved pathways for vulnerable groups including looked after children and people with learning disability Development of an understanding about future workforce gap for new service model THH estates gap – chronic condition of physical infrastructure and inefficient space constrains service provision. Significant capex required Gap to ensure appropriate set up/step down facilities, hospital front end primary care, increased diagnostic and ambulatory care provision Equitable access to care and support regardless of time of day or place of residence
Hillingdon Finance & Efficiency Gaps	 High cost acute activity can only be reduced by re-orientating the entire health and care economy towards prevention and integration Capitol investment – estates to meet new capacity demands Pooled budgets and joint commissioning - Shared KPIs and performance management framework to ensure priorities are aligned / Best Value for the available funding Delivery of efficiencies through our existing and emerging QIPP Efficiency Schemes. Estate rationalisation to reduce the operational footprint and also to build on our hub strategy. Identification of efficiency savings through improved management of patients with LTCs and focusing on Prevention. Reduction in Length of Stay and Admission Rates (when clinically appropriate) as system wide contribution to reduction of overall bed usage,

Overview of the Local Services Programme for NWL

Overview of the 6 Local Services Programme Initiatives

In parallel with the development of the Sustainability & Transformation Plan (STP) work has been underway at a North West London (NWL) level to review and prioritise initiatives under the heading of the Local Services Programme (LSP) (previously the Out of Hospital Programme) that will underpin the move of care away from hospital to support the NWL STP. The Local Services Programme has identified six initiatives which are summarized below.

Initiatives	Description
Initiative 1. New Models of Local Services Care	Developing new models of care utilising technology, patient activation and empowerment, different clinical models etc. For Hillingdon this is mostly covered by the Primary Care Model of Care and Older People Model of Care (which is also aligned to the Accountable Care Partnership)
Initiative 2. Self-care	Empowering and informing patients with Long Term Conditions to enable them to take control of elements of their care, manage their condition more effectively and ultimately improve their long term outcomes. This also links to Personal Health Budgets.
Initiative 3. Wider determinants of health	Working across health and social care to jointly address wider issues that affect the health of individuals and populations including deprivation, homelessness, alcohol and substance misuse and social isolation.
Initiative 4. Rapid Response and Intermediate Care	Effectively and safely reducing the number of people who need to be admitted to hospital and are supported either to remain in their normal place of care or are supported home. This also encompasses supporting the effective and safe discharge of people following an admission to reduce their overall length of stay.
Initiative 5. Expanding Common Discharge	Improving the coordination of discharges across borough boundaries including supporting access to local services including reablement, rehabilitation, bridging care and other services.
Initiative 6. Last Phase of Life	Coordinating support for people at the end of their lives and supporting them and their carers to enable them to die in their preferred place of death with the right support provided to manage their care.

Our Local Approach To The Five Year STP Challenge

Our Local Approach To The Five Year STP Challenge

Our approach to delivering the challenges set out in this STP involves numerous activities many of which are closely related and all are inter-related. Therefore we have grouped our work into 9 Transformation Programmes and 6 Enabling Programmes that align to both the 9 North West London Priorities and the 6 Local Services Initiatives as detailed below. The Enabling Programmes by definition align with most, if not all, of the priorities and initiatives.

			Alignme	ent To The	9 North W	est Lond	on Prioritie	es		Alignme	ent To The	6 Local Serv	vices Progr	amme Initi	atives

Our Transformation Programmes in Detail

	_	HILLING	DON TRANSFORMATION PROGRAMME	S	-	
	2020/21 OUTCOMES	COMES UNDER-PINNING EXPECTED IMPACT		KEY 16/17 ACTIONS	ACTIONS 17/18+	
1. Transforming Care for Older People	 Coordinated Care for Older Peoples' Planned & Unplanned Care Needs across Care Settings Improved Health Outcomes through focusing on LTCs and complicating factors Integrated Health & Social Care support for those patients who need it Reduced frequency of unplanned events 	 Whole System Integrated Care Strategy Better Care Fund 	 Reduction in Non-Elective Admissions Reduction in Zero-Length of Stay Admissions Reduction in overall costs associated with supporting Older People 	 Implement phase 1 of the Care Home Initiative Develop Carers Support Programme Rollout H4All Wellbeing Gateway Integrate Unplanned Support for Older People Develop new 'Core Offer' for Care Homes including support for EMI and people with SMI Proactive identification of those at risk of social isolation Embed the Memory Assessment Clinic Support Development of capitated budget as part of ACP 	 Rollout new care model via ACP focused on Older People Rollout new core offer for Care Homes integrating Primary, Community and Secondary Care support Embed Frailty Tool Embed Care Connection Teams Deliver the Like Minded Programme 	
2. New Primary Care Model of Care	 Increasing number of Pts managed outside of hospital setting with integration across Primary, Community & Secondary Care Services and Social Care 	 Five Year Forward View 	 Increase in activity managed outside of a hospital setting. Reduction in costs across the system per capita to meet the financial gap 	Develop Primary Care Model of Care focused around Unplanned Care, Care Homes and LTCs		
3. Integrating Services for People at the End of their Life	 Increasing number of people able to die in their preferred place of death Coordination of support to people at End of Life and their families/carers on a 24/7 basis and across all care settings 	 End of Life Strategy Better Care Fund 	 Increase in people dying in their preferred place of death Increase in people with anticipatory care plans Reduction in the costs associated with managing people at End of Life 	 Finalise End of Life Strategy and manage via EoL Forum Develop integrated service model including 24/7 SPA and Out of Hours Nursing Support Develop procurement plans around third sector services 	 Rollout EoL Strategy and new integrated service model Increase access to Coordinate My Care (CMC) 	

Our Transformation Programmes in Detail

			ON TRANSFORMATION PROGRAMMES			
	2020/21 OUTCOMES	UNDER-PINNING STRATEGIES EXPECTED IMPACT		KEY 16/17 ACTIONS	ACTIONS 17/18+	
4. Integrated Support for People with Long Term Condition (LTCs)	 Reducing prevalence growth for core LTCs and significant progress made in closing key prevalence gaps Improved outcomes and support for people with multiple LTCs and complex needs Reducing unplanned care needs arising associated with LTCs Significant progress in patient activation and the numbers of patients self-managing elements of their care Increase access to and usage of Personal Health Budgets (PHBs) 	 Long Term Conditions Strategy Dementia Action Plan Better Care Fund Prevention Strategy 	 Reduction in prevalence growth Reduction in prevalence gap Reduction in unplanned events for people with LTCs Reduction in the costs associated with supporting people with LTCs increase in people with an LTC who self-manage elements of their care Increase in people with an LTC who have an anticipatory care plan Achieve 280 PHBs by 2020/21 	 Refresh Long Term Conditions Strategy Rollout Integrated Services for Respiratory, Cardiology (HF) and Diabetes and seek to expand to cover AF and Stroke Rollout new Empowered Patient Programme Develop plans around co- morbidity management and support to complex service users Develop plans around management of MH related LTCs 	 Expand usage of Patient Activation Model (PAM) Embed AF and Stroke Services Improve support for patients with MH related LTCs Rollout programme for complex users Proactive engagement with groups at high risk of developing LTCs Expand access to and use of online advice Implement MH support for patients with a physical LTC Expand ICP to wider cohort 	
5.Transforimg Care for People with Cancer	 Holistic pathways covering both medical and non medical care pathways elements Integrated cancer rehab Early identification Improved uptake rates for screening programmes SPA survivorship service model DA and STT diagnostics model 	 Hillingdon Cancer Improvement Plan -Cancer Strategy London Cancer Strategy 	 Reduction in unplanned events Early identification of Cancer patients in primary care/community settings GP DA and STT community diagnostics Pathway stratification Treatment options close to patients homes 	 Finalise rollout of Cancer Stratified Pathways Roll out Lymphedema service model Develop Hillingdon Cancer Board for non clinical cancer support services Develop diagnostic capacity to meet demands and targets for Cancer pathways Review screening programmes Review Q Cancer Tool utilisation 	 Roll out clinical protocol for the follow ups in community Develop SPA rehab model Implementation of DA and STT Rollout outstanding actions from Cancer Improvement Plan 	
6. Effective Support for People with a Mental Health need and those with Learning Disabilities	 Reduction in inequalities associated with the care of people with one or more LD Reduction in risk of harm to vulnerable people Improved support for people with an urgent mental health need Significant progress in closing the mortality gap between people with an LD and the wider population 	 Learning Disability Action Plan Dementia Action Plan 	 Reduction in the mortality gap Reduction in the unplanned care costs associated with supporting vulnerable people and those with an LD Reduction in unplanned care needs arising for people with a known mental health condition 	 Rollout of 24/7 SPA for people with MH needs Develop all age early intervention service Review Community MH Teams Develop and rollout MH Rapid Response Service Implement post discharge follow ups 	 Expand ICP to include people with MH Conditions Rollout new model of Community MH Support Rollout Community LD Service 	

Our Transformation Programmes in Detail
