

## QUESTIONS FROM MEMBERS

### 7.1 QUESTION SUBMITTED BY COUNCILLOR DUNCAN TO THE LEADER OF THE COUNCIL - COUNCILLOR PUDDIFOOT:

As the government has now confirmed that it will provide postcode information to councils will the Council add regular, local, updated information about the number of Covid 19 cases and deaths in the borough, by ward if possible, to the Council's website? This would give residents much needed, easily accessible, reliable evidence of what is happening in their area, reassure parents that it is safe to send their children to school, older residents that it is safe to shop and warn of any spikes that may occur?
