### SUPPORTING INFORMATION

1. At its meeting on 8 September 2020, the Committee agreed that all future meetings be scheduled to start at 6.30pm for the remainder of the municipal year, to provide those attending straight from work with a little extra time to arrive. Should the need arise, the Committee will be able to vary the start time on an ad hoc basis. Given the current changing situation with regard to COVID-19, whether the meeting will be held in person or virtually will also be determined on an ad hoc basis.

4. Currently, meetings can only be held virtually up until 7 May 2021. Although meeting rooms will be booked for the meetings in the new municipal year, the format of the meeting (whether in person or virtual) will be guided by the Government.

### **Live Broadcasting of Meetings**

5. It should be noted that Cabinet, at its meeting on 30 May 2019, agreed that all future policy overview and select committee meetings would be broadcast live on YouTube. As such, all formal External Services Select Committee meetings will be broadcast live. Where possible, these meetings will take place in Committee Room 5 to facilitate better views of the meetings. If a Committee meeting is to be held virtually, it will also be streamed and broadcast live.

### **Topics to be Scheduled into the Work Programme**

6. It should be noted that the Committee is required to meet with the local health trusts at least twice each year. It is also required to scrutinise the crime and disorder work of the Safer Hillingdon Partnership (SHP).
7. It was agreed that representatives from The Hillingdon Hospitals NHS Foundation Trust (THH) would be invited to attend the meeting on 28 April 2021 to talk to Members about the measures that have been taken with regard to infection prevention and control. THH will also be asked to provide Members with an update on the progress of the new hospital development. At this meeting, the Committee will also receive an update from NHS England (NHSE) / NHS Improvement (NHSI) in relation to the review of the Mount Vernon Cancer Centre.
8. All Trusts, except for THH, will be invited to the meeting on 29 April 2021 to provide the Committee with an update on the work that they have been undertaking.

### **Possible Topics for Consideration in a Single Meeting**

9. Once the Work Programme for 2021/2022 has been populated with the Committee's statutory scrutiny responsibilities, there are opportunities to scrutinise other issues in the remaining meetings. Members are asked to suggest possible topics that would fall within the Committee's Terms of Reference for consideration in these meetings:
- To undertake the powers of health scrutiny conferred by the Local Authority (Public Health, Health and Wellbeing Boards and Health Scrutiny) Regulations 2013.
  - To work closely with the Health & Wellbeing Board & Local Healthwatch in respect of reviewing and scrutinising local health priorities and inequalities.

- iii. To respond to any relevant NHS consultations.
- iv. To scrutinise and review the work of local public bodies<sup>1</sup> and utility companies whose actions affect residents of the Borough.
- v. To identify areas of concern to the community within their remit and instigate an appropriate review process.
- vi. To act as a Crime and Disorder Committee as defined in the Crime and Disorder (Overview and Scrutiny) Regulations 2009 and carry out the bi-annual scrutiny of decisions made, or other action taken, in connection with the discharge by the responsible authorities of their crime and disorder functions.

10. Possible topics could include:

- a. Preventative Health: Prevention is a concept that refers to upstream interventions which seek to help people maintain or improve health before it is compromised. This stands in contrast to the traditional role of the health care system that is to restore health once it has already come under threat. Which areas of health care will be best served by actions to prevent deterioration? As this is such a wide area, consideration would need to be given to making this more specific. Possible witnesses could include: health partners, service users and Healthwatch Hillingdon;
- b. OWL/Neighbourhood Watch: OWL (Online Watch Link) keeps communities safe, helps reduce crime and keeps people informed of what's going on locally. It's a secure platform for the public and shared with the police and local authority to maximise the potential of Neighbourhood Watch, Rural Watch, Business Watch and dozens of other schemes. OWL sends subscribers the latest local crime alerts and provides management tools for maintaining and expanding watches. Possible witnesses could include: the police, Neighbourhood Watch organisers and local residents associations;
- c. 5G and Greater Connectivity: In telecommunications, 5G is the fifth-generation technology standard for broadband cellular networks, which mobile phone companies began deploying worldwide in 2019, and is the planned successor to the 4G networks which provide connectivity to most current mobile phones. 5G will be much faster than 4G making it (and even high-speed fibre broadband) seem sluggish. A minimum expectation is for download speeds of 10Gbps, more than 1000x faster than 4G and enabling an entire HD film to be downloaded in under 10 seconds. What coverage is available in Hillingdon? How does this compare to the rest of London / England? Possible witnesses could include: providers and users.
- d. Children's Dental Services: Members to consider whether the Dentistry Select Panel review could be undertaken in a single meeting review. The Select Panel held a single witness session on 12 February 2020. Since then, the Chairman of the Select Panel and one of the remaining four Members on the Panel have gained Cabinet positions so will be withdrawn from the Select Panel. It is suggested that the Select Committee consider looking at this issue as a single meeting review during its usual meeting schedule and that a report with any findings and recommendations subsequently be submitted to Cabinet;
- e. Journalism and Local Democracy: To establish the role of journalism in the Borough with regard to local democracy and look at how journalism has changed. How can

---

<sup>1</sup>The Local Democracy Economic Development and Construction Act 2009 identifies public bodies as having a strong local presence, making decisions that are directly relevant to local people in the principal local authority's area and include: health bodies; police bodies; fire and rescue authorities; waste bodies; National Park and Broads authorities; transport authorities; economic prosperity boards and combined authorities; probation services; the Greater London Authority and Transport for London.

journalism help residents to become more engaged in the local democratic process? How can democracy be promoted amongst young people? The Local Democracy Reporting Service (LDRS) is a public service news agency funded by the BBC, provided by the local news sector and used by qualifying partners (it's like a franchise where different companies with different approaches use common editorial standards and all publish into the same system). Possible witnesses could include: Brunel journalism students, the Council's Communications Team, LDRS journalist, and representatives from local radio and Nextdoor; and

- f. Apprenticeships and Adult Learning: The apprenticeship levy is paid by large employers with a pay bill of over £3 million (they pay 0.5% of their total annual pay bill). Currently, only 2% of employers pay the apprenticeship levy. The levy is there to fund apprenticeship training for all employers. Smaller employers (those with a total annual pay bill of less than £3million) pay just 5% of the cost of their apprenticeship training and the Government pays the rest. What progress and benefits has the apprenticeship scheme provided to the private sector? Has the levy enabled private sector businesses to develop the skills needed and fill any gaps? What adult learning opportunities are provided in the private sector? Possible witnesses could include: local private sector businesses and HCUC (A merger between Uxbridge College and Harrow College).
