

HEALTH UPDATES

Committee name	Health and Social Care Select Committee
Officer reporting	Nikki O'Halloran, Democratic Services
Papers with report	None
Ward	n/a

HEADLINES

To enable the Committee to receive updates and review the work being undertaken with regard to the provision of health services within the Borough.

RECOMMENDATIONS:

That the Health and Social Care Select Committee notes the presentations.

SUPPORTING INFORMATION

All health partners were invited to attend the Health and Social Care Select Committee meeting on 22 November 2022 but, unfortunately, a representative from CNWL was unable to attend. A representative from CNWL has been invited to attend this meeting to provide Members of the Committee with an update on the work that the organisation has been undertaking, and highlight things that have been going well, as well as things that have not been going so well.

Central and North West London NHS Foundation Trust (CNWL)

CNWL is a large and diverse organisation, providing health care services for people with a wide range of physical and mental health needs. The Trust employs approximately 7,000 staff who provide integrated healthcare (more than 300 different health services) across 150 sites and in many other community settings. Types of services include:

- **Physical health:** Community treatment for physical conditions that do not require general hospital treatment or conditions that require long-term care. This includes district nursing, health visitors, stroke care and support for people in recovery.
- **Mental health:** Community and hospital treatment for children, adults and older people with mental health problems. Services range from counselling support for mild conditions to rehabilitation treatment for long and enduring mental health problems.
- **Learning disabilities:** Assessment and treatment for people with learning disabilities who also have complex mental health needs and/or challenging behaviour. Services are provided in the community or hospital.
- **Eating disorders:** Admission to hospital or appointment sessions are provided to support men and women with an eating disorder.
- **Addictions:** Community drug and alcohol treatment services are provided, as well as hospital admission when it is needed. Specialist services to address problem gambling, compulsive behaviour and club drug problems are also available.
- **Sexual health:** Appointment and walk-in services are available for anyone who needs them. This includes contraceptive choices, treatment of sexually transmitted infections and HIV testing and treatment.

- **Prison and offender care:** Full healthcare services, including primary healthcare, addictions and mental health support, are provided in a number of prisons. Mental health support is also provided in the community for people who have offended in the past or people at risk of offending.

Witnesses

Representatives from the following organisation have been invited to attend the meeting:

1. Central and North West London NHS Foundation Trust (CNWL)

Integrated care systems (ICSs)

Key planning and partnership bodies from July 2022
