

# HILLINGDON

LONDON

<b>Meeting:</b>	Children, Families and Education Select Committee	<b>Date:</b>	13 November 2024
<b>Venue:</b>	Committee Room 6	<b>Time:</b>	19:00

## ADDENDUM SHEET

### Item 8: Proposed closure of the Physical Disability (PD) Special Resourced Provision (SRP) at Coteford Infant School Page: 62

#### Officer Comments:

The text below on page 62 of the agenda is to be replaced:

*“The Council note the contents of the petition and highlight that the figures presented in the petition are incorrect. Having investigated the data shared, we can confirm that the figures recorded for the Spring Census 2024 which was completed by the school, have only 12 pupils (6.8%) with EHCPs and 39 pupils (17.6%) on the SEN register. This does not include the 3 pupils in the PD SRP.*”

(as of Spring 2024)	National	London	Statistical Neighbors	Hillingdon	Coteford Infant School
% Pupils with EHCP	4.8%	4.9%	4.5%	4.9%	6.8%
% Pupils on SEN Register	18.4%	17.6%	16.9%	16.7%	17.6%

*As you can see from the table above, this shows that the number of children at the school with an EHCP are slightly higher than average, but children on the SEN register are around average when compared to London, higher than the Hillingdon average, and lower than the National average.”*

#### Amendments/ Additional Information:

The below text is the replacement:

*“The Council note the contents of the petition and highlight that the figures presented in the petition are incorrect. Having investigated the data shared, we can confirm that the figures recorded for the Spring Census 2024 which was completed by the school, and shown in table below demonstrate that Coteford Infant school do have a higher percentage of children across all measures compared to other benchmarking groups. However, schools with an SRP often have a higher number of children with an EHCP compared to the national average, as some families will still choose to send their child to the school as they believe they will have a better learning experience.*”

*Please note that the figures in the table are including the 3 pupils on roll at the SRP, so. If we remove these children from the calculation for Coteford Infants, the percentage of children with an EHCP at the school reduces to 5.5% compared to the national average of 4.9%.”*

(as of Spring 2024)	National	London	Statistical Neighbors	Hillingdon	Coteford Infant School
% Pupils with EHCP	4.80%	4.90%	4.50%	4.90%	6.80%
% Pupils with SEN Support	13.60%	12.70%	12.50%	11.80%	17.60%
% Pupils on SEN Register	18.40%	17.60%	16.90%	16.70%	24.40%
