

<b>Major Review Working Title</b>	<b>A Review of Footway Parking in Priority Areas (Phase 1)</b>
<b>Committee</b>	<b>Residents' Services Select Committee</b>
<b>Review Year</b>	<b>2025/2026</b>

## OBJECTIVES

### Aim of Review

To undertake a focused review of footway parking arrangements on a small number of priority roads in Hillingdon, particularly near schools, GP surgeries and shopping parades, where accessibility concerns have been raised. The review will assess signage, enforcement, and practical improvements to support pedestrian access and safety.

### Terms of Reference

1. To review footway parking arrangements on a small number of priority roads near schools, GP surgeries and shopping parades, and those with known accessibility concerns for pedestrians, including roads where parking enforcement is currently suspended.
2. To check the clarity and adequacy of signage and information for residents and visitors.
3. To examine how enforcement currently operates on these roads, including those with suspended enforcement, and identify any gaps or inconsistencies.
4. To consider simple, practical improvements such as better signage, clearer mapping, and digital tools to support enforcement.
5. To look at good practice from other London boroughs.
6. To make initial recommendations to Cabinet on how to improve safety, accessibility and enforcement in these priority locations, establishing a policy framework for any wider review of this across the Borough in the future.

## BACKGROUND

Footway parking in Hillingdon has evolved over decades, with over 400 roads historically exempted from enforcement. Many of these exemptions were informal or temporary, often lacking compliant signage or markings. While some roads have formal schemes, others rely on informal, self-managed arrangements. This has led to

inconsistent enforcement, accessibility challenges for pedestrians, and confusion for residents and visitors.

## Scope

This Phase 1 review will focus on a small number of priority roads with known accessibility issues. It will assess the clarity of signage, the impact on pedestrian access, and the effectiveness of current enforcement. The review will also consider practical improvements and examples of good practice from other boroughs.

## Known Issues

- Inconsistent or unclear signage in exempted roads.
- Accessibility challenges for pedestrians, especially those with mobility or visual impairments.
- Enforcement gaps and confusion over legal status of informal schemes.
- Resident resistance to formal schemes due to potential loss of parking capacity.
- Damage to footways, verges, and street furniture from inappropriate parking.

## Role of Residents

- Residents shape footway parking policy through:
  - **Petitions and Consultations** – requesting changes or opposing schemes.
  - **Exemption Requests** – leading to suspended enforcement in many roads.
  - **Feedback on Physical Changes** – e.g., verge removal or parking schemes.
  - **Neighbourly Agreements** – informal self-policing in exempted roads.
  - **Accessibility Lobbying** – especially for mobility and vision needs.
  - **Participation in Reviews** – such as the 2016 study of exemptions.

## Connected matters

- Parking strategy and enforcement policy.
- Resident engagement and complaints.
- Digital transformation and service accessibility.

## Legislative context

- Greater London Council (General Powers) Act 1974, s.15 – London-wide ban on footway parking, with borough power to grant exemptions.
- Traffic Management Act 2004 (Part 6) – framework for civil parking enforcement.
- Road Traffic Regulation Act 1984 – powers for Traffic/Parking Orders that formalise exemptions and schemes.

- Traffic Signs Regulations and General Directions 2016 – standards for lawful signage and markings.
- Highways Act 1835 s.72 and related provisions – offence of driving on the footway (police enforced).
- Other police-enforced provisions: Highways Act 1980 s.137, Town Police Clauses Act 1847 s.28, and Construction & Use Regs 1986 reg.103.
- Road Traffic Act 1988 s.19 – HGV restrictions on verges/footways.

## **EVIDENCE GATHERING**

Core intelligence required:

- List of roads with formal and informal footway parking arrangements (see Appendix 1) – this will need to be narrowed down to a small number of priority areas. Councillor input will be useful in this.
- Resident and Ward Councillor feedback, complaints, and petitions.
- Site visits to assess signage, accessibility, and parking behaviour - suspended zones with high complaint volumes.
- Enforcement data (PCNs issued, appeals, cancellations).
- Examples of good practice from other London boroughs.

### **Cabinet Members & Services relevant to this review**

- Cabinet Member for Community & Environment / Cabinet Member for Planning, Housing & Growth.
- Parking Services and Enforcement Team.
- Highways and Transportation Team.
- Legal Services (for compliance and enforcement powers).

### **Potential Witnesses and Site Visits**

- Officers from Parking Enforcement, Highways, and Legal Services.
- Local residents and Ward Councillors.
- Representatives from schools, GP surgeries, and local businesses.
- Site visits to priority roads with known issues.

### **Lines of Enquiry**

- Specific lines of enquiry will be worked up prior to witness sessions.

## **REVIEW PLANNER**

Proposed timeframe & milestones for the review:

Meeting Date	Action	Purpose / theme	Witnesses / officers attending
9 September 2025	Agree Scoping Report	Define scope and objectives / understand the core issues	Democratic Services Transportation Officer
6 November 2025	Witness Session 1	Current enforcement and suspension practices	Richard Webb / Freddie Mohammed / Jas Rattu / David Knowles
December 2025	Site Visit	Review signage and specific suspended zones	Committee Members
8 January 2026	Witness Session 2	Resident and business impact  Best practice and innovation	Communications, Local Residents, Business Representatives
18 February 2026	Debrief and emerging findings	To discuss key findings and identify potential recommendations	Democratic Services
10 March 2026	Approval of draft final report	Proposals – agree recommendations and final draft report to Cabinet	Committee Members
22 April 2026	Final Report to Cabinet		Cabinet Members

## Resource Requirements

No financial assessment required at scoping stage. Any recommendations with budget implications will be discussed with Cabinet Members and the Leader.

## Equalities Impact

The review will promote equitable access to footways and ensure that enforcement practices do not disadvantage vulnerable residents. No formal Equalities Impact Assessment is required at this stage.

## Scrutiny Benefit

- Driving improvement and modernisation.
- Supporting accessibility and safety for all residents.
- Providing evidence-based recommendations to Cabinet.

- Demonstrating effective scrutiny and resident engagement.

Author of Scoping Report	Liz Penny
Date	1 September 2025

**Roads in Hillingdon exempted from Footway Parking Enforcement based on resolutions made by the Council at the time (see dates in table below).**

Locations Exempt from Footway Parking Enforcement (except where there are waiting restrictions or stopping prohibitions)

Generally, the Council's criteria for footway parking are as follows<sup>12</sup>:

- Vehicles must park at least 15 metres from any junction.
- Vehicles must park with only two wheels on the footway and leave at least 1.5 metres width of clear footway for pedestrians to walk along.
- Any goods vehicle parked on the footway must have an unladen weight of 1525kg or less.
- Parking is permitted on tarmac areas but not on grass verges or on paving slabs.

It should be noted that there are some exceptions to these criteria which are detailed in the table below.

A key problem is that these arrangements were brokered between the Council and the residents of the time; both may changed considerably in the years that ensued. Furthermore, in common with the tenet of much formal parking and traffic legislation, a visitor to an area cannot be expected to be aware of these arrangements.<sup>13</sup>

<sup>12</sup> See also 1987 papers attached at Appendix B

<sup>13</sup> The Human Rights Act 1998 and its relationship to parking regulations in the UK, particularly regarding private parking companies, is a complex issue with multiple layers. While the Act does not directly regulate private parking enforcement, it can be invoked to challenge practices deemed 'unfair' or 'unreasonable'. The Act ensures compliance with the European Convention on Human Rights, which includes rights to fair trials and freedom from disproportionate interference with property. The context here is that a stranger to the local area cannot be expected to know, by osmosis, what conditions have been locally agreed without clear information.
