#### Key Aspects of Fostering Legislation:

- **Safeguarding Children:**
  - A core principle of fostering legislation is the protection of children from harm and abuse. Foster carers are expected to provide a safe and nurturing environment, and fostering services have a duty to ensure the welfare of children in their care.
- **Support for Foster Carers:**
  - Fostering legislation recognises the vital role of foster carers and emphasises the need for them to receive adequate support, training, and information to enable them to provide effective care.
- **Placement and Review:**
  - Legislation outlines the process for placing children in foster care, including the assessment of foster carers, the development of care plans, and the regular review of placements to ensure they are meeting the child's needs.
- **Leaving Care:**
  - Legislation addresses the support and arrangements for young people leaving foster care, ensuring a smooth transition to adulthood.

#### Other Relevant Considerations:

- **Private Fostering:**
  - Separate guidance and regulations exist for private fostering arrangements, which involve children being cared for by someone who is not a close relative.
- **Health and Safety:**
  - Foster carers are expected to adhere to health and safety standards, including those related to fire safety, first aid, and medication management.
- **Behaviour Management:**
  - Fostering legislation and guidance address the management of children's behaviour in foster care, emphasising positive approaches and de-escalation techniques.

### **3. EVIDENCE GATHERING**

#### **Core intelligence required**

- Number of foster carers and children in care
- Demographics of foster carers and children in care
- Information on recruitment and retention practices
- Data on placement types and stability
- Feedback from foster carers and children in care
